EXPERIENCE

Software Engineer, Upscale Hub

Sep 2024 - Sep 2026, Lille, France

- Designed and deployed production-grade RAG pipelines combining dense embeddings and BM25 lexical search across PostgreSQL and vector databases, reducing hallucinations while maintaining sub-second latency.
- Developed cross-platform desktop (.exe) and web applications using React, TypeScript, and Electron, integrating custom hardware and IoT communication protocols.
- Containerized backend microservices with Docker and integrated automated testing into CI/CD pipelines.

Web & Multimedia Developer, FlexBox AI

May 2024 — Jul 2024, Dubai, UAE

- Designed dynamic web components and lightweight interactive vector animations (SVG/JavaScript), optimizing asset size and DOM rendering performance across browsers.
